GEA's next sponsored geothermal energy event

Renewable Energy World North America Conference & Expo

February 14–16, 2012 ~ Long Beach, CA ~ Long Beach Convention Center

Geothermal Track Sessions

The 2012 Geothermal Track features sessions on Geothermal Policy and Economics; Geothermal Plant Systems and Technology; and Geothermal Energy and Waste Heat Recovery.

Speakers from the geothermal community will include: Halley Dickey, TAS Energy; Karl Gawell, Geothermal Energy Association; Joe Lillard, Atlas Copco Mafi-Trench; John McCaull, Geothermal Energy Association; John McIlveen, Jacob Securities Inc.; Josh Nordquist, Ormat Technologies; Mike Ronzello, Pratt and Whitney Power Systems; Bruno Vanslambrouck, HOWEST, University College of West Flanders; Kelsey Walker, TAS Energy; A. Scott Weber, University of Buffalo; Harvey Wen, Bechtel Power Corp.; and Gary Zyhowski, Honeywell.

*Enjoy renewables-friendly California
where 5% of the energy mix
comes from geothermal energy.*

Pre-conference Workshop

Available as part of the pre-conference workshop series, GEA and a team of instructors will provide a half-day, 101-style introduction to “Geothermal Energy in California and Beyond.” Attendees can earn Professional Development Hours! This course discusses key aspects of geothermal energy resources, development, and business in California and around the world. Appropriate for business managers, students, energy analysts, and more.

Workshop Instructors

John McKinsey chairs the robust Geothermal Energy practice at Stoel Rives, LLP.

Karl Gawell has been with the GEA since 1997 and previously worked for AWEA.

Maria Richards coordinates Southern Methodist University's Geothermal Laboratory.

Louis Capuano, Jr., founded ThermaSource, Inc., a complete geothermal services company.

To register for the 2012 Renewable Energy World North America Conference and Expo, go to <http://www.renewableenergyworld-events.com/index/registration-information.html>

GEA is involved in this PennWell annual event on the planning committee, facilitating a pre-conference workshop, co-chairing geothermal sessions, and on the Expo floor, so come say hi! **Contact: leslie@geo-energy.org**

Register for the workshop (additional): COMPETITIVE POWER COLLEGE (CPC) PRE-CONFERENCE WORKSHOP
201 GEOTHERMAL ENERGY IN CALIFORNIA; Date: February 14; Time: 8:00 AM – 12:00 PM; Room: 203C;
Registration Fee: \$375.00, includes workshop materials, certificate of completion and coffee break.
